## A Mains at The 2009 Western Grands

The day is here. Months of anticipation, hours of practice, hundreds of gear and tire changes... the moment each quarter midget racer dreams of... racing in an A-main event of a National Race. Today we will see 15 races with the best Quarter Midget Race car drivers in the country. Our week will end with new memories of our Quarter Midget Racing experience. We will leave knowing that we have made new friends and have touched base with our old friends. Each Grands will leave our families with a specific memory that we will always remember-it may be on the track or, in most cases, off the track. This is what puts our sport above the rest. Our goal is to keep these experiences going for future generations.

Good Luck to all our A Main Racers.
