Rule Tires Article 4 Section 4 Page 23

Present Wording:

None

Proposed Wording

5.C Tires may be kept in the original plastic wrapper up until the car is in the st

Reason for Change

There have been rumors and hear say about the tires in wrappers being illegal. First you take the temp of a tire in the wrapper as compared to a tire out of the wrapper actually 5 degrees cooler. So there is not a (greenhouse effect) in heating the tire is that you probably have to be crazy to even want to treat a vega tire. So if some tire has been treated they need to be checked with the proper QMA tools. Don't penal handlers/drivers for leaving the original wrapper on a tire. I personally do it to greasy hands, and other contaminates off the tire. We pay \$100 for right side tires care of them.

(Optional)

I give my permission for our Regional Director, his assistant or/and person designated by him to alter or change this rule change to suit the needs of Q.M.A. Yes [checked] No

Proposed Implementation Date

4/1/2009

Signature of Club President [Signature]
Signature of Regional Director [Signature]
Printed Name of Club President Dave Albertson
